MLA's Energy Practice has experience advising IPPs in the different phases of the project. Whether the Client wishes to engage in direct negotiation with the government or participate in competitive bid, our qualified team can provide a seamless legal services to make sure the process is in compliance with Ethiopian laws.

Our team has considerable experience in negotiating with different government bodies representing notable and respected international clients, as well as assisting and representing clients in competitive IPP bid submission.

we strive for excellence

We provide first class legal service which is tailored to your need.

MLA is a reliable partner to companies involved in the energy sector. Our office is composed of highly qualified lawyers in the area of energy law as well as in all other business laws.

FEW OF THE SERVICE WE PROVIDE IN RELATION TO THE ENERGY SECTOR INCLUDE:

- Reviewing Power Purchase Agreements and Implementation Agreements;
- Negotiating the terms of Power Purchase Agreements and Implementation Agreements with the relevant government authorities to ensure the agreements' bankability; and
- Once the agreements are signed, processing incorporation, land permits and generation licenses.

AS A FULL SERVICE LEGAL ADVISOR, MLA ALSO PROVIDES THE FOLLOWING LEGAL SERVICES TO IPPS:

- Advising on optimal structure and setting up SPVs;
- Advising on the foreign exchange regulations;
- Advising on tax matters including incentives available for IPPs; and
- Advising on employment and immigration law matters.
